THURSDAY 20 FEBRUARY

11.45  Introduction
  Goals of the course
  M. Babjuk, Prague (CZ)
  J. Palou, Barcelona (ES)
  M. Roupret, Paris (FR)

MODULE 1: Epidemiology, aetiology and diagnostic strategy
Moderators: B. Malavaud, Toulouse (FR), J. Palou, Barcelona (ES)
12.00  Pathology and molecular classification of bladder cancer, can it influence treatment decisions?
  F. Liedberg, Lund (SE)
12.20  Work-up in patients with gross haematuria, urinary cytology and markers. What do we really have to do?
  A. Brisuda, Prague (CZ)

12.40  LIVE SURGERY (TURB standard)
Moderators: A. Brisuda, Prague (CZ), M. Roupret, Paris (FR)
  Standard bipolar TURB with PDD
  F. Witjes, Nijmegen (NL)
  Standard monopolar TURB with NBI
  J. Palou, Barcelona (ES)
  Standard bipolar TURB with IMAGE1S
  L. Lusuardi, Salzburg (AT)
  Standard monopolar TURB with PDD
  L. Lusuardi, Salzburg (AT)

15.00  Coffee break

MODULE 2: Diagnosis and initial treatment steps in daily practice: semi-live
Moderators: F. Liedberg, Lund (SE), F. Witjes, Nijmegen (NL)
15.30  Current options of endoscopic tumor visualization, how to use them in daily practice?
  B. Malavaud, Toulouse (FR)
15.45  Strategy and technique of TURB (separate resection, en-bloc)
  M. Babjuk, Prague (CZ)
16.00  Practical examples – video’s
  M. Babjuk, Prague (CZ), B. Malavaud, Toulouse (FR)
  Technologies and techniques in TURB
  • Different lights for diagnosis
  • Monopolar resection
  • Bipolar resection
  • Biopsy and electrofulguration (outpatient)
  • Lasers
  TURB for tumours in difficult locations
  Management of tumour at ureteral orifice or in terminal ureter
  TURB in intradiverticular tumour
  Management of patients with prostatic urethra involvement
17.00 Management of TURB complications
M. Roupret, Paris (FR), J. Palou, Barcelona (ES)
- Hemorrhage
- TUR syndrome
- Obturator jerk
- Perforation: Intra and extraperitoneal
- Acute urinary retention

17.30 Cases prepared by participants discussed by the whole faculty
Moderators: M. Babjuk, Prague (CZ), J. Palou, Barcelona (ES)
Panel: Faculty

18.30 Summary

FRIDAY 21 FEBRUARY

MODULE 3: Risk stratification and risk adjusted management
Moderators: M. Babjuk, Prague (CZ), L. Lusuardi, Salzburg (IT)
08.00 Risk stratification and indications according to the EAU guidelines based on case presentations
M. Babjuk, Prague (CZ), J. Palou, Barcelona (ES)
08.30 Practical steps of each intravesical treatment method, principles of new techniques; Bladder instillation: Mytomycin, BCG, EMDA, SYNERGO, HIVEC and UNITHERMIA
F. Witjes, Nijmegen (NL)
08.50 Complications of intravesical treatment and their management
A. Breda, Barcelona (ES)

MODULE 4: Management of patients with BCG failure
Moderators: A. Breda, Barcelona (ES), F. Liedberg, Lund (SE)
09.10 Definition of BCG failure, current and perspective treatment options
M. Roupret, Paris (FR)
09.40 Radical cystectomy for NMIBC: What has to be done, extent, diversion?
F. Witjes, Nijmegen (NL)
09.55 LIVE SURGERY (En-bloc TURB/ laser)
Moderators: L. Lusuardi, Salzburg (AT), F. Witjes, Nijmegen (NL)
- Bipolar en-bloc resection with incision electrode and NBI
  M. Babjuk, Prague (CZ)
- Bipolar en-bloc resection with loop and NBI
  B. Malavaud, Toulouse (FR)
- En-bloc resection with Thulium laser
  A. Breda, Barcelona (ES)
- En-bloc resection with IMAGE1S and Confocal Laser Endomicroscopy
  A. Breda, Barcelona (ES)
12.00 Lunch

12.30 Lasers in NMIBC surgery
A. Breda, Barcelona (ES)

12.45 Cases prepared by participants discussed by the whole faculty
Moderators: J. Palou, Barcelona (ES), M. Babjuk, Prague (CZ)
Panel: Faculty

14.30 Closing remarks
M. Babjuk, Prague (CZ)
J. Palou, Barcelona (ES)
M. Roupret, Paris (FR)
Faculty
M. Babjuk, Prague (CZ)
A. Breda, Barcelona (ES)
A. Brisuda, Prague (CZ)
F. Liedberg, Lund (SE)
L. Lusuardi, Salzburg (AT)
B. Malavaud, Toulouse (FR)
J. Palou, Barcelona (ES)
M. Roupret, Paris (FR)
F. Witjes, Nijmegen (NL)
